

## Care Instructions HanZ/T 4, Blouse Dress

100% Cool Wool (Virgin Wool)

### 1. Cleaning

- **Frequent cleaning is not necessary:** Virgin wool is naturally dirt-repellent and odor-neutralizing. In most cases, airing out the dress after wearing is sufficient.
- **Cleaning recommendation:** To maintain the quality of the dress, professional dry cleaning is recommended.

### 2. Storage

- Hang on a shaped hanger to maintain the structure of the dress and the shaped shoulder area.
- A well-ventilated, dry location is recommended.

### 3. Refreshing

- **Gentle steam treatment:** Light wrinkles can be carefully smoothed with a handheld steamer. Keep the device at a slight distance from the fabric to avoid straining the fibers.

### 4. Ironing

- **Temperature:** Wool setting (max. 110°C / 230°F).
- Gently reshape pleats and gathers with the tip of the iron to maintain volume and structure.

## Why Cool Wool?

This dress is made of high-quality Cool Wool, which offers the following benefits:

- **Temperature-regulating:** Virgin wool keeps you warm on cool days and provides a refreshing feel in warmer temperatures.
- **Breathable and moisture-wicking:** It absorbs moisture and quickly releases it, ensuring a dry and comfortable feel.
- **Dirt- and odor-resistant:** Virgin wool is naturally antibacterial and requires only infrequent cleaning.
- **Wrinkle-resistant:** The natural elasticity of the fibers helps the dress maintain its shape even after prolonged wear.
- **Soft and non-scratchy:** Cool Wool is exceptionally fine, comfortable against the skin, and does not itch.
- **Durable:** The robust fibers make the dress long-lasting and easy to care for.
- **Sustainable:** Virgin wool is a renewable resource and fully biodegradable.
